

Occupational Health and Safety Policy

Thistle Fabrication is a fully integrated fabrication, repair and shutdown maintenance service supporting industry including power generation, oil & gas, chemical/process and mining organisations. We are conveniently based in Kwinana Western Australia offering ease of access for a large number of our customer base. We specialise in high quality work and our technical ability of intricate metallurgical requirements is second to none.

Thistle Fabrication directors recognise their overall responsibility to ensure they provide a duty of care and safety sits as an integral part of the business. Thistle Fabrication has a fully integrated management system. Our occupational health and safety management system is compliant to OHSAS 18001 and AS4801 having achieved accreditation in 2009. Thistle Fabrication will ensure they are in compliance to relevant legislation and will have procedure in place to monitor change.

Our safety performance whilst on our client's site is reliably sound and performance indicators reflect a well-managed work group. Thistle Fabrication will consistently strive to increase staff awareness of safety matters to avoid complacency and to seek new and more effective ways of taking preventative safety measures.

Our goal is the reduction of injury to employees and contractors with the development of better work place facilities. This will be achieved by an ongoing training program and encouraged awareness of environment. In addition we will have ease of communications, encouragement to report, written instruction evaluation of risk and good supervision. We identify key performance goals as part of our annual safety plan
